Attention: Dr. J.L. Henry

Dear Dr. Henry:

Enclosed are two copies of a preliminary report on the "Geology of the Hamilton, Herman, Makaroff, Funk. and Horner sites, Leask and Redberry Blocks, Saskatchewan". This report includes ten cross sections and two maps showing the location of the cross sections, proposed testholes, and testholes to be drilled. These interpretations are tentative requiring testholes for confirmation.

Sincerely yours,

E.A. Christiansen
