Water Security Agency is looking for an enthusiastic individual to join our Standards and Approvals unit as a Approvals Engineer in our Moose Jaw location.

Reporting to the Manager, Water & Wastewater, an employee in this position will aid in protecting, enhancing and sustaining public health and the environment through ensuring the sound design, construction and management of drinking water and wastewater systems.

As an Approvals Engineer, this employee will be responsible for approving activities related to the development, construction and management of a variety of drinking water and wastewater systems in the province. This employee will also be participating in the development of protocols, standards, codes of practice and regulations related to drinking water and wastewater systems.

The successful candidate will have a Degree in Environmental Engineering or similar discipline with a focus on drinking water and wastewater treatment, a license to practice professional engineering from the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS), and at least 4 years of directly related experience in the design, construction and/or evaluation of drinking water and wastewater facilities.

“**Need a Career?**  
**Just add Water!**

At the Water Security Agency, you’ll have more than just a job - you’ll build a rewarding career. Whether you’re managing water supply, protecting water quality or ensuring safe drinking water, you can be confident that the work you do will help to support a strong and growing Saskatchewan. Become a member of the team that is committed to being the best water management agency in North America.”

We offer rewarding career opportunities, competitive salaries and a comprehensive benefits package.
